Craig -

Re: the epa funding sources list on matrix:

- I think your first 2 bullets are meant to be our funding under CWA section 320. Not sure why its listed twice. This consists of an annual grant of about \$500k to the SF Estuary Partnership.

- the State Revolving Funds (both under the CWA and SDWA) consist of annual grants to the SWRCB and DPH. We have no decision-making role on what projects they choose to lend these monies to.

Subject: Chapter 8 of the Bay Delta Conservation Plan

Reclamation has been asked by the state to provide assistance in populating a BDCP Funding Sources table in Chapter 8, Implementation Costs and Funding Sources. Specifically, the table is to identify by agency the potential sources of federal funds. We have identified Reclamation's primary appropriations, in terms of authority and provided a brief write-up description for each.

To date, the state has not asked for historical or projected funding, although we expect a request is forthcoming. We'll have to coordinate a federal response when that comes in.

Please provide input on the table relative to your agency by COP Tuesday, November 8th. I need to forward the consolidated table to the state by COB Wednesday November 9th.

Please call me if you have any questions.

Thanks

Craig
